

Wiesel V6 Charger Version 4

Connecting:

Plug the included Wiesel charger into an outlet and connect it to the battery.

Charging:

Charging starts automatically.

LED display:

LED red on: charging
LED green on: battery is fully charged

Input voltage: 100 – 240 V~, 50 – 60 Hz
Charging current: up to 1.9 A
Compatible batteries: Li-Ion 7.2 V

The battery can be left plugged into the charger for an indefinite period. Although this will not damage the battery, it is not advisable for Li-Ion batteries since they do not require conservation charging. When kept in a cool place, the annual self-discharging rate for such batteries is 15 %.

- **Warning!** This charger is to be used to charge rechargeable Li-Ion batteries only.
It is NOT suitable for charging NiMH batteries!
- **Do NOT use non-rechargeable batteries. – Risk of explosion!**
- This charger may be opened **ONLY** by the manufacturer!
